DESIGNS.

Just come in and look at them, it will do
your heart good, even if you don't care to
buy just now. You'll receive polite atten-
tion just the same.

Lessing, Solomon & Rosenthal,

East Texas Presbytery.

San Augustine, Tex., Sept. 16.—The
presbytery of eastern Texas met here
and was opened with a sermon by the
Rev. W. K. Marshall, D. D., Isaiah
lv, 10-11. The first Presbyterian
church in Texas was organized at this
place the 2d of June, 1838. This pres-
bytery has not met in San Augustine
for thirty-six years. Rev. C. C. Wil-
liams of Tyler was elected moderator
and T. Ward White temporary clerk.

Robbed and Outraged.

St. Louis, Sept. 16.—Yesterday af-
ternoon at 4 p. M. Michael Kennedy
and his wife went across the river on a
fishing expedition. They went to a
point near the Indianapolis and St.
Louis railroad in the southern section
of East St. Louis. During the even-
ing hoodlums came upon the Kene-
dys, beat the husband and drove him
away and then assaulted the woman.
After relieving her of \$7 in money and
a gold watch, each of the party out-
raged her and left her in a terrible
condition.

Overrun by John Chinaman.

San Francisco, Cal., Sept. 16.—
The United States dispatch boat Dol-
phin, which arrived from Honolulu to-
day, brings news that the Chinese of
Honolulu recently held a mass meet-
ing to protest against the action of
the Hawaiian Legislature in passing
laws tending to prevent Chinese from
transacting business on the island.
It is stated that the Chinese raised a
fund to advance their interests and
intimidated by threats that they would
compel the Hawaiian government to
accede to their demands. There are
more Chinese males on the island
than are males of all other nations,
including the natives.

Nobody in this country desires or
talks about any breach of peaceable
relations growing out of these ques-
tions, much less do we consider
them a cause for immediate or ulti-
mate hostilities with Canada or Great
Britain. We simply demand what is
obviously just and fair, and if we do
not get it we propose to treat Canada
as we are treated. Simply that and

nothing more, and on that point the
government and the people are united
regardless of any consideration of
domestic politics.—New York Times,
Ind.

Colored finished hose 15 per pair.

Come and see our New Goods and
you are sure to be pleased.

Lewine Brothers.

Austin & 6th Sts.

Dr. Tanner Again.

Chicago, Sept. 15.—Dr. H. S. Tan-
ner, who became famous some years
ago by fasting forty days in Claren-
don hall, New York city, arrived in
Chicago yesterday from New Mexico.
He is apparently in perfect health, and
his girth is such as to suggest any-
thing except abstinence from food.
About the last words from the doctor
previous to his arrival here was, that
he was in New Mexico living upon a
pure vegetable diet. At present he
eats two meals a day in summer and
one meal a day in winter. In an in-
terview he said he had been in Mexico
for two years pursuing investigations
into the subject of suspended anima-
tion or counterfeited death. He is con-
vinced that large numbers of people are
annually buried alive all over the world
and from his study of various cases
and the records of societies on the sub-
ject in Holland and elsewhere he con-
vinced that so subtle is the principle
of life that no one can undertake to
say that it is extinct until decomposi-
tion, the only sure sign, has set in. He
declares the dead in this country are
buried with indecent and criminal
haste, and that burials of persons who
are not absolutely dead are murders.
The doctor is also pursuing another
branch of semi-suspended animation,
viz: hibernation. He declares bears
and other other hibernating animals
do not use their lungs during the
hibernating season, and he is con-
vinced that man can hibernate. He re-
fers to the long trances of Hindoo
adepts, accomplished through long
seasons of fasting, and declared it to
his belief that these trances are merely
seasons of hibernation. The doctor
says he is studying with the view to
making some experiments in this line,
and that the time may come when he
will permit himself to be sealed up in
an air-tight coffin and laid away until
such time as he shall designate for it
to be opened.

Thrown Under a Train.

Knoxville, Tenn., Sept. 16.—A
horrible murder was committed at
Heiskell's Station, six miles north of
this city, this morning. Henry Fritts,
a young farmer, was standing at the

depot when a coal train pulled up.
Archie Kimbro, a brakeman on the
train, made an insulting remark to
Fritts, which led to further words be-
tween them. Just as the train moved
away Kimbro, who is a muscular
giant, grappled with Fritts and threw
him under the wheels, where he was
directly ground to pieces. Kimbro
jumped on the moving train and es-
caped.

Percy Navigates the Whirlpool Rapids

Rochester, N. Y., Sept. 16.—A
special to the Herald from suspension
bridge says: Charles A. Percy, the
whirlpool rapids navigator of this
place, who has been preparing for the
past week to take a trip through the
rapids, started from the old Maid of
the Mist landing at 4:35 p. m. to-day.
When he struck the rapids near Man-
ning's elevator his boat capsized, but
righted below Cutter's elevator. He
was twenty-one minutes going through.
No damage was done to the boat.
The woman who had intended to go
through with him backed out.

Railway Agent Shot Down.

Coleman, Sept. 16.—Last night
about 10 o'clock a man by the name
of Will Atley shot and killed C. H.
Harris, railroad agent. Harris had
driven the man away from the depot
for using indecent language, as there
were ladies in the waiting room. At-
ley soon returned with a Winchester
rifle, and as Harris stepped to the
door he fired, the ball entering his
body just below the left ribs, from the
effects of which he died at 12:50 to-
day. Atley is at large.

Wire Covering for Cotton.

Jackson, Tenn., Sept. 16.—A J.
McGee, a young lawyer in this city,
has obtained a patent on a wire cov-
ering for wrapping cotton, which it is
believed will solve the question of
wrapping for all future time. He is
preparing to give wire cloth a thor-
ough test, and believes it can be made
nearly as cheap as jute bagging at the
old figures and serve for two or more
crops. The inventor is receiving en-
couraging letters from the cotton ex-
changes at St. Louis, New Orleans
and Memphis.
